ABOUT ME

Motivated and detail-oriented Web Developer Intern with a strong foundation in HTML, CSS, JavaScript, and responsive design principles. Skilled in building user-friendly, accessible, and mobile-optimized websites using modern frameworks like Bootstrap. Passionate about creating clean, efficient code and improving user experience. Eager to contribute to real-world projects, learn from experienced developers, and grow in a collaborative environment.

EDUCATION

Bachelor of Computer Application (BCA)

MGM's College of CS & IT, Nanded.

Final Year Student | Expected Graduation: 2026

EXPERIANCE

PreDrag System LLP.   **15/Jul/2025 - Present**
- Debugging and Solving the problem into the current project.
- Redesigning the UI of the current projects and making them responsive.
- Working on the backend part to add more modules and analytics part.

PROJECTS

Warehouse Inventory Management System.

Role: Full-Stack developer
- Redesigned the user interface of a web-based inventory management system using HTML5, CSS3, Bootstrap 5, SASS, and PHP (CodeIgniter). Focused on creating a responsive, user-friendly experience for tracking material usage, site requirements, and inventory operations across construction sites.

Campus Hire - Academic Project

Role: Full Stack Developer
- Designed and developed a recruitment platform connecting students with companies through college associations. Implemented role-based access for students, companies, and admin. Built the full stack using HTML5, CSS3, Bootstrap 5, SCSS, JavaScript, PHP, and MySQL, focusing on responsive UI, dynamic functionality, and efficient data handling.
